The Gilmore Groin and Hernia Clinic

A centre of excellence for the assessment, investigation and treatment of Gilmore's Groin (also known as Sportsman's Groin) and hip problems.

Over 7,900 patients referred for Gilmore's Groin assessment with over 4,900 undergoing surgery since the condition was identified and repair pioneered by Jerry Gilmore in 1980.

The Typical Patient is a young male whose pain increases with

- Sprinting
- Kicking
- Twisting & Turning
- Coughing
- Sneezing

Rapid Access to Investigation, Diagnosis and Surgery

A reliable return to full action for elite sportsmen of 3 – 4 weeks post surgery, other patients 6 – 8 weeks

Also investigation and repair for herniae of all types

Recognised by All Medical Insurers

Packages also available for the uninsured

"You don't have to be an elite athlete to be treated like one!"

More information is available on the clinic's website www.108harleystreet.co.uk
